90 Second Presentation

Get students to prepare a presentation that they will perform to the class. This should challenge them to demonstrate and apply their learning.

Students are to presentation the information they have been given in 90 seconds. They will need to plan what information they are going to talk about, how long this will take and also if they need to make any prompt card. Students can maximise the content of their presentation by using the GAP tasks.

If using GAP you will need to complete the GAP worksheet to outline the variation in challenge and support available for the task-

- Green- Supportive version of the task
- Amber- The original version of the main task
- Pink- Challenging version of the task
