

Peer Questions

key

other information

This exercise could be used over a series of lessons and a league system could operate with teams of pairs working together. The exercise runs as detailed but at the pairs stage they use this to decide the best 5 questions to take forward to the competition. Use groupings to support differentiation.

instructions

Peer questioning is an AfL task to test pupils understanding of the lesson topic. This can be used at any point of the lesson and can also be adapted to form a plenary or a starter in a following lesson.

Working individually to start with pupils are to write 5 questions based upon the lesson content to test a partner with. They will have 3 minutes to complete this task. Prior to this you may wish to use a mind mapping activity to give pupils some points to work from. The resource has a 3 minute timer available.

Once the questions are completed pupils form pairs and test each other. This could then be extended through pairs joining to form small groups and repeating the questioning part of the exercise.

The table below explains what each icon used on the resources key represents. The key is broken down into 4 categories:

Starters (blue)

Main lesson activities (cyan)
