

# Popup Card

Get students to produce a popup card that challenges them to demonstrate and apply their learning.

Students present the information that they have been given as a pop-up card. They must consider how to represent the information required through the use of images that can be cut out and used as a simple mechanism to make them stand up when the card is opened.

If using GAP you will need to complete the GAP worksheet to outline the variation in challenge and support available for the task-

- Green- Supportive version of the task
- Amber- The original version of the main task
- Pink- Challenging version of the task
