

Sketch

Get students to produce a single sketch that challenges them to demonstrate and apply their learning.

Students are to present the information that they have been given as a sketch. This needs to be a single sketch that should not contain any text. They can include multiple items within their sketch if they wish. Students can maximise the content of their sketch by using the GAP tasks.

If using GAP you will need to complete the GAP worksheet to outline the variation in challenge and support available for the task-

- Green- Supportive version of the task
- Amber- The original version of the main task
- Pink- Challenging version of the task
