

Stage Scene

Get students to design and make a stage set that challenges them to demonstrate and apply their learning.

Students present the information that they have been given as a stage scene. They create a simple box with sides and then make a scene and characters to represent the learning from the task. They can maximise the content of their scene by using the GAP tasks.

If using GAP you will need to complete the GAP worksheet to outline the variation in challenge and support available for the task-

- Green- Supportive version of the task
- Amber- The original version of the main task
- Pink- Challenging version of the task
