

# Step-by-step

Get students to produce a step-by-step plan that challenges them to demonstrate and apply their learning.

Students present the information they have been given as a step by step guide. This should break the information down into sections that are then shown in the correct order. They can maximise the content using the GAP tasks.

If using GAP you will need to complete the GAP worksheet to outline the variation in challenge and support available for the task-

- Green- Supportive version of the task
- Amber- The original version of the main task
- Pink- Challenging version of the task
