

YouTube Video

Get students to plan and act out a YouTube video. This should challenge them to demonstrate and apply their learning.

Students are to present the information that they have been given in the form of a YouTube video. This must be a mix of acting and the use of visual cue cards. They will need to plan what information they are going to talk about and what will go onto the cue cards. Students can maximise the content of their video by using the GAP tasks.

If using GAP you will need to complete the GAP worksheet to outline the variation in challenge and support available for the task-

- Green- Supportive version of the task
- Amber- The original version of the main task
- Pink- Challenging version of the task
